

Large Print Word Search

10 puzzles - one per page - full-size answer key

Every puzzle in this pack is set the way a large print book should be:

- One 15 x 15 puzzle per page, with nothing else on the page.
- 20 point letters in half-inch cells, so there is room to draw a line through a word without covering the letters underneath.
- Heavy grid rules, because the lines between cells are the first thing an aging eye loses and the thing that lets you trace a diagonal.
- Word banks printed at the same size as the grid, not shrunk to fit.
- An answer key printed FULL SIZE at the back, one puzzle per page.

Words run across, down and diagonally. Nothing is printed backwards in the first five puzzles; from puzzle six onward, words may run in any of the eight directions.

Print on plain letter paper. There is no colour anywhere in this pack, so it costs the same to print as a page of text.

Free to print for yourself, for family, for a classroom, or for a care home. Please do not resell it.
